# FIVE TWENTY CREW

## ABOUT US

A collective of four well rounded individuals, with the intention of bringing prominence to the culinary and artistic culture within the Tucson community.

Mainly based on social media platforms, we promote businesses, artists and events through video, photos and articles. Passionate about the true local scene, we seek out and provide media coverage to owners and their local businesses.

Karina CR - Middle school Spanish educator and sports coach. It is through her passion of education and working with adolescents that she has developed a strong love for the Tucson community. As a member, she writes articles and is one of our social media managers.

Caleb Orellana - Culinarian and owner of Cal's Bakeshop LLC. Apart from photographing, writing, filming and editing, Cal also handles the group's communications, networking, social media and is usually finding the next story, business or event to cover.

Josue Orellana - An independent Graphic designer under the Instagram handle @Huskabeesgraphics. As a former media student, Josue helps us with videography, video editing, illustrations and photography.

Ezra Valenzuela - Professional photographer and owner of Desert Owl Photography LLC. With his understanding of photography, editing and previous experience in journalism, "Ez" is tasked with being our lead photographer.

# OUR MISSION

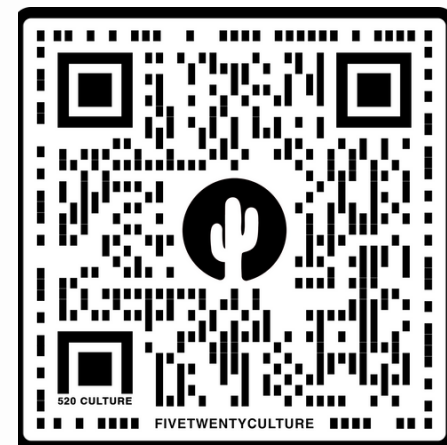

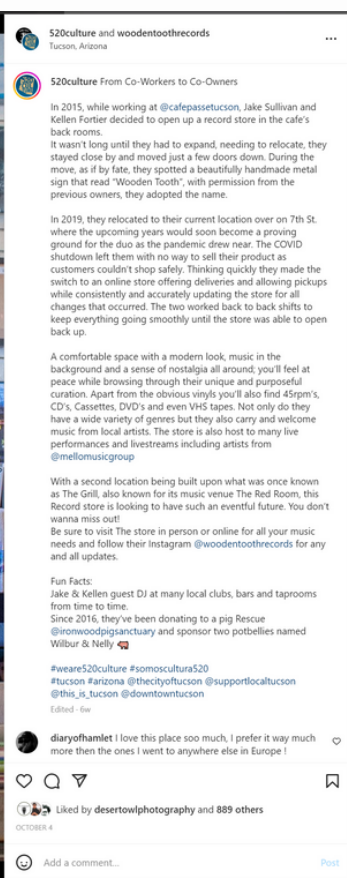

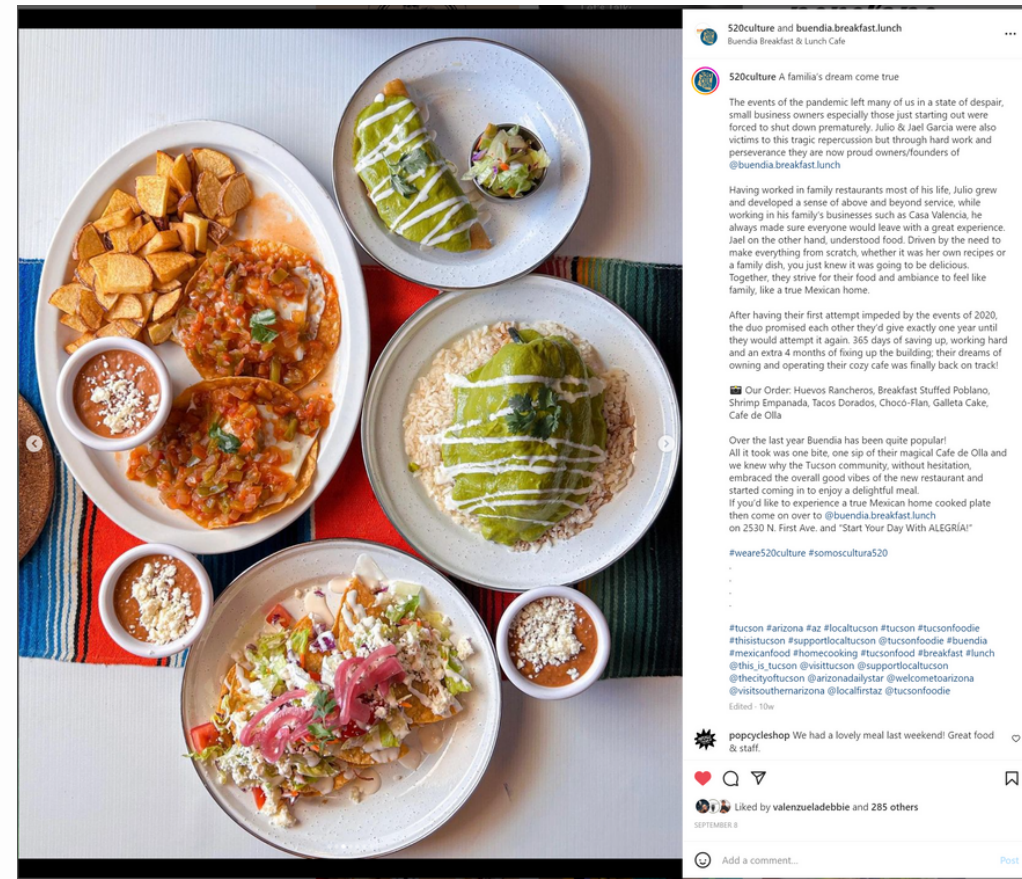

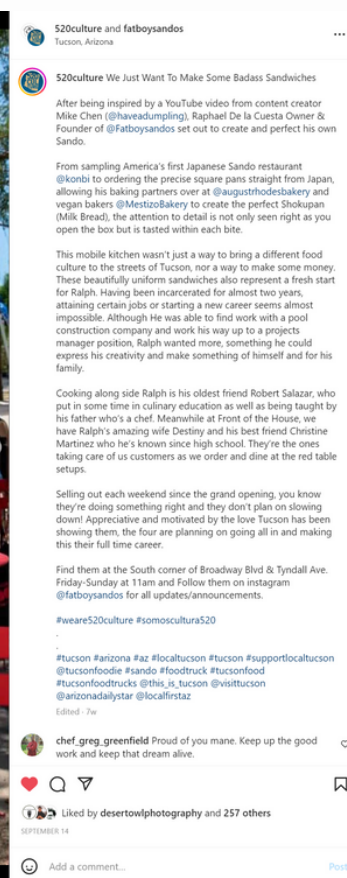

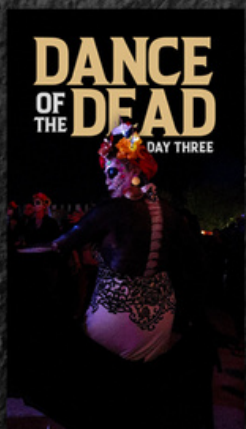

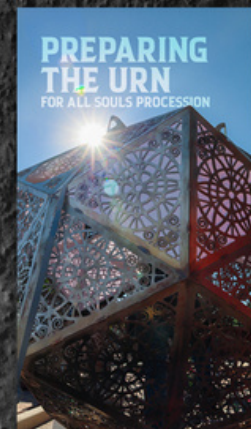

As a culturally thriving city, Tucson is consistently being met with locals marketing their amazing talents and unique products. Our role is to provide a platform for these individuals to promote their business while also spreading awareness of the arduous journey it takes to progress as an independent executive.
